

TRI-XO

CROSS OVER

Mineral and Saltwater Chlorinator

-  SALT AND MINERAL SWITCHING
-  LONG LIFE REVERSE POLARITY ELECTRODE
-  BOOST MODE AND LOW/SPA MODE
-  INTUITIVE CONTROL INTERFACE

The Zodiac TRI-XO Series features everything you have come to expect from the leaders in water care products, plus the added benefit of now being able to 'CrossOver' from using traditional salt chlorination to also mineral chlorination.

Eco Conscious

Helps reduce additional chemical use

The Zodiac TRi-XO CrossOver provides great flexibility and performance. With inbuilt software that has been designed to configure to either traditional salt chlorination or CrossOver to using mineral salts. You can CrossOver at anytime, so even if you begin using salt you can reset the software and reconfigure to use minerals.

TRi-XO was designed in Australia to take on the harsh climate and environment of the pool area and provide great reliability year after year. It is packed with features to make looking after your pool easier and more affordable, plus choose salt or minerals to suit your preference.

Outstanding Features

- A simple to use control interface makes setting up a breeze, includes built in timers and help menu
- Long life Reverse Polarity electrode plates for increase cell life and decreased maintenance
- Boost mode to handle the really hot days or when you need a little extra for the pool party
- Low/Spa Mode makes it ideal for pool/spa combo pools and if you're using a blanket
- 40 and 50mm plumbing ports make it suitable for new or retrofit applications

Enhance your bathing experience

Zodiac recommends using TRi-XO with our mineral salt called Element™. This is a magnesium rich salt blend making your bathing experience more enjoyable. In some cases it may be necessary at the start up to use Element™ Activate mineral salts. Seek advice from your pool care professional about converting your pool.
